7. Varia:

- P. Wolfensberger, Faculty of Health and Social Sciences, Bournemouth University, offered this comment: „It seems as with any "new" organisation that there is a gap between what is wanted and probably even needed and what is reasonable and achievable. As co-president of the academic society of psychiatric nurses in Switzerland and therefore a member of the Swiss Association of Nursing Sciences (our umbrella organisation) I could offer a link to the field of nursing sciences in Switzerland if needed (e.g. extending the network and collaboration between disciplines). However, as I am still working on my PhD my current resources are limited, but I am interested to become more active in the IASC in the future.“

11. The IASC General Assembly closed on June 28, 2017.
